Bose qc 20 noise cancelling earphones android

Shut out the world and lose yourself in your music - or hear what's around you. It's your choice with the first in-ear noise cancelling headphones from Bose. The QuietComfort 20 Acoustic Noise Cancelling headphones are engineered to let you enjoy better sound every day, everywhere you go. Turn on noise cancelling to reduce surrounding distractions and focus on your music. Or, at the touch of a button, activate Aware mode so you can hear what's happening around you without removing the headphones. Inside the QC20 headphones, exclusive TriPort technology brings your music to life. Additional Bose technologies provide dramatic noise cancellation rivaling any full-sized headphone on the market today. Proprietary StayHear+ tips create a soft, secure fit &ndash with no need to force them into your ears. The inline microphone and remote let you switch easily between calls and music with your Samsung Galaxy and Android smartphones. The rechargeable lithium-ion battery provides up to 16 hours of use, and a USB charging cable is included. And even when the power is off or the battery runs out, you can still use these headphones to enjoy Bose quality sound. Features: Compatible with Samsung and Android Bose noise cancelling technology, shut out the world and focus on your music Aware mode to hear what's around you at the press of a button Deep, clear sound from the Active EQ and TriPort technology Soft, and secure for hours of listening from proprietary StayHear+ ear tips Dimensions: 6cm L x 12.7cm W x 19.8cm H This item may be delivered separately from other items purchased. It cannot be delivered to a PO Box or Parcel Locker.Many of our products come with a guarantee or warranty from the manufacturer. If you are unhappy with the condition or performance of your new items, please get in touch with the Rewards Store Customer Service team via the Contact Us page.To read more about our delivery and returns information please visit:2,000PTS + \$357.50 Standard delivery The black QuietComfort 20 Acoustic Noise-Cancelling In-Ear Headphones from Bose feature their active noise-cancelling technology with an in-ear headphone design. The headphones are powered by Bose's TriPort Acoustic drivers to produce a balanced frequency response. They are powered by the built-in rechargeable lithium-ion battery that provides up to 16 hours of noise cancellation per charge. The in-line microphone with remote allows you to take calls and control your Android, Blackberry, or Windows phone.There are moments when you may not want to be so cut off from your surroundings; crossing a city street, waiting for airline gate announcements. This is where Aware mode comes in. Instead of removing your headphones, just press a button, and you're back in touch with the sounds around you—while your music keeps playing, and you still experience some noise cancellation.The environmentally friendly built-in lithium-ion battery (located inside the module) charges in just 2 hours with the included USB cable, and delivers up to 16 hours playing time per charge. A battery indicator light displays power status. And, even if the battery dies, your music still plays with performance equal to that of our regular in-ear headphones.Bose QuietComfort 20 SpecsEarpieceDesignIn-Ear (Intra-Aural)Active Noise CancellationYesConnectivityAudio Connector to Source1/8" / 3.5 mmCableIn-Line Remote/MicrophoneYesCable Length4.2' / 1.28 mBatteryBattery ChemistryLithium-IonMaximum Runtime16 HoursCharging Time2 HoursPhysicalPackaging InfoPackage Weight0.65 lbBox Dimensions (LxWxH)8 x 4.75 x 2.35" Bose® noise cancelling technology, shut out the world and focus on your music Aware mode to hear what's around you at the press of a button Deep, clear sound from the Active EQ and TriPort® technology Soft, and secure for hours of listening from proprietary StayHear®+ ear tips QC20 headphones let you experience music on the go as never before. You'll enjoy lifelike, digital sound quality that stands out from the noise around you—plus the freedom of an in-ear headphone. StayHear+ tips physically block some noise while our Acoustic Noise Cancelling technology electronically reduces most of what's left. It's just you and your music, even in noisy environments. But there are moments when you may not want to be so cut off from your surroundings. Crossing a city street. Waiting for airline gate announcements. This is where Aware mode comes in. Instead of removing your headphones, just press a button, and you're back in touch with the sounds around you—while your music keeps playing, and you still experience some noise cancellation. All this, plus Bose lifelike sound. Sound you wouldn't expect from in-ear headphones. Our TriPort® technology and Active EQ combine to give your music a depth and balance that keep your daily soundtrack fresh and alive. The subtle details shine through, too. So wherever you are, your music's front and center. And your music's even easier to enjoy when you're not fussing with your headphones. Proprietary StayHear+ tips create a soft, secure fit with no need to force them into your ears. The cone shape spreads contact evenly across the ear for maximum comfort, and forms a gentle seal that contributes to the headphones' full-spectrum noise reduction. Controls are all at your fingertips. Use the slider switch on the control module to turn noise cancelling on and off. The inline microphone/remote houses Aware mode and call answer/end buttons. The 4-button remote, provides volume and music control plus access to voice-recognition apps, like Siri or Google search. The lithium-ion battery (located inside the module) charges in just 2 hours with the included USB cable, and delivers up to 16 hours playing time per charge. A battery indicator light displays power status. And, even if the battery dies your music still plays with performance equal to that of our regular in-ear headphones. When not in use, simply store your headphones and cables in the included carrying case. QuietComfort® 20 headphones — Samsung devices 3 pairs StayHear®+ tips (S, M, L) Clothing clip Rechargeable lithium-ion battery (built-in) USB charging cable Carrying case Charging time: 2 hours Battery life: 16 hours per full charge Rated 5 out of 5 by Chela from Great lam satisfactory with this product! I love it. And recomend Date published: 2020-10-13 Rated 5 out of 5 by Matt from Game changer! I invested in this device to control wind noise while riding my motorcycle. The ear plugs I used were just not getting the job done. As soon as I got on the interstate, I realized that this was a great investment. They fit inside my helmet and dull the roar of wind over the surfaces. This exponentially improved ride quality. Date published: 2020-10-05 Yes, QC®20 headphones are still able to play audio if the battery power is depleted and the unit is powered off. You will not be able to use noise cancelling or Aware mode, however, and Active EQ, which electronically provides more lifelike audio reproduction, is disabled. These technologies need power to operate. QC20 headphones are specifically designed to work with select Apple or select Samsung and Android™ devices. An inline microphone and one-touch answer/end button allow for seamless switching between your calls and music. Some phones may require you to hold the answer/end button for a few seconds to perform these functions. No, QuietComfort 20 headphones are not designed to be used in wet environments.
