One of them is ASUS Notebook X453S which belong to the lower class notebook. This notebook is designed for office workers and entertainment as seen from the screen that is large enough 14 inches. For your own performance, this laptop is powered by Intel Celeron processor, 2 GB RAM and Intel HD Graphics VGA, making this laptop has a reliable performance and efficient use of power.Asus X453S series is actually not much different from the Asus X453M Series terms of both specifications and physical design. Only, X453S comes with a new processor generation. Just like his brother, the notebook is available in four colors, namely Black, White, Red, and Purple. Asus equips these laptops with a screen size of 14 inches TFT LCD technology that uses LED (Light Emiting Diode) backlight with a resolution of 1366 x 768 pixels, the same as Asus X453M series. The screen size is big on the X453S is very supportive for users who spend a lot of time working in front of a laptop. This notebook weighs less than 2kg, fairly standard for a conventional 14-inch laptop in its class. Performance offered by Asus laptop X453S seems to me not very prominent, although has been powered by the new generation of Intel processors, namely Braswell which is a continuation of the Bay Trail. Asus arming X453S with an Intel Celeron dual-core N3050 generation Bay Trail that ran at a speed of 1.6 GHz and TurboBoost reach 2,16GHz. Not only that, Asus X453S is also supported by the memory capacity of 2GB RAM with a speed of 1600MHz DDR3L types which can be upgraded up to 8GB as needed.Storage space sector, is also relatively standard laptop by relying on hard disk capacity of 500GB with 5400rpm rotor speeds that can be upgraded if necessary. Laptop connectivity is pretty standard in its class with support for WiFi, USB 2.0 port, USB 3.0 port, VGA port, HDMI port and DVDRW. This Taiwanese manufacturer equip X453S with a battery capacity of 2 cell 30whrs, tend mediocre. Unfortunately, the laptop is made by Taiwan's ASAT vendors do not provide this X453S series notebook with a Windows operating system pre-installed, but only Free DOS. Consumers must purchase a license of Windows or Linux operating system may be installed first in order to use this laptop. and after that users should also look for drivers for Asus X453S. asfadriv. com provide download link for Asus X453S Drivers. you can download drivers directly from link below.drivers also supported for Windows 7 32bitAsus X453S BIOSBIOS 210 Support 2013 Power Saving DownloadAudioRealtek Audio Driver V6.0.1.6710 DownloadCard ReaderAlcor Multi-Card Reader Driver V3.4.117.01527 DownloadAsus X453S Chipset driverIntel INF Update Driver V9.3.0.1021 DownloadVGAIntel Graphics Driver V9.17.10.2843 DownloadAsus X453S Touchpad touchpadSynaptics Touchpad driver V16.2.11.7 DownloadElantech Touchpad driver V11.5.2.1 DownloadLANAtheros LAN Driver V2.1.0.7 DownloadAsus X453S Bluetooth driverAtheros BlueTooth driver V8.0.0.206 DownloadAsus X453S Drivers from our site, please report if any broken link you found.Asus X453S Drivers Download - ASUS is actively producing notebooks that target all segments, in addition to upscale segment, ASUS also targeting the lower class or the entry-level.
