Its main feature is the Energy Star qualification, along with its efficiency rating. It is a built-in dishwasher type; it uses about 330 kWh and the tub is made out of plastic. The inside racks are made out of vinyl. It has a sound insulation, producing about 6 dB of noise. You can select between 4 different washing cycles and 6 options such as high temperature wash, Sani-Rinse, heated dry etc. It fits most kitchen openings due to its average size.You get a set of installation instructions with it, and the Whirlpool customer service is at your disposal. You cannot really go that wrong with dish washers as they only have a single electric cable, one or two water cables and that's it, the rest is just the inside parts. The different washing cycles are presented on the control panel and make sure you use the appropriate detergent or those special cubes for dishwashers. This would be the very basic when it comes to the content of the Whirlpool Quiet Partner II manual, as anything else goes into the field of technical support, as the only thing left to cover are malfunctions. Hopefully you will not need that, and by the time your dishwasher dies it would have served up its time perfectly fine and you will be able to afford a new one.Download the Whirlpool Quiet Partner ii Manual under this link.In case you're searching for the Whirlpool Quiet Partner II PDF manual, you can download it through this link: Advertisement -- Advertisement -
