## 48 laws of power audiobook mp3 free download

Amoral, cunning, ruthless, and instructive, this piercing work distills three thousand years of the history of power into 48 well-explicated laws. This bold volume outlines the laws of power in their unvarnished essence, synthesizing the philosophies of Machiavelli, Sun-Tzu, Carl von Clausewitz, and other infamous strategists. The 48 Laws of Power will fascinate any reader interested in gaining, observing, or defending against ultimate control. I read the reviews for this book after I purchased it but before reading it. A lot of the reviews did not have good things to say. I still read the book and boy do I have to say it was a great book good strategy's and advise! Yes this book is deceptive and a bit manipulating! Sometimes those Tactics are necessary. I think there is something for everyone in this book to apply in your life! A lot of people are critical with the content in this book because they think that it's a playbook for how to manipulate others. You COULD use the book for that purpose, but it's more valuable as a guidebook to inform yourself in regard to how YOU can be influenced and manipulated. People who are uncomfortable with knowing that these social laws are used every day are just putting themselves in a weaker position in life. I strongly advise anyone read or listen to this book if they want to familiarize themselves with the inner workings of social politics. Wether you are looking to rise or protect yourself, this is a must read! The need for power is so fundamental, so essentially human, that when you feel you have no power over people or events, you are likely to be depressed. People who pretend to have no aspirations to power are either deceiving themselves or attempting to deceive others. Everyone wants power. The more they get, the more they want. Power is like a drug, but it does not weaken you. On the contrary, it makes you stronger. Yet, it is considered somewhat impolite and vulgar, almost an outrage, to seek power forthrightly. Those who want power must seem to have no interest in it. Indeed, they must pretend to care only about others. The person who best projects an image of not caring for power will become the most powerful. It is paradoxical and, perhaps, unhealthy but you cannot honestly and straightforwardly pursue power. You must disguise your means and ends. This does not mean lying. Indeed, it is wrong to lie, not because lying is immoral, although according to moral codes it is, but rather because the risk of being exposed is too great. Power depends on trust. The known liar loses trust and, therefore, loses power. Duplicity... Robert Greene has a degree in classical studies and has been an editor at Esquire and other magazines. youtube.com/watch?...
