Coshh sheets for fairy liquid

A three-page COSHH assessment module, with some examples of text reading: 'Health hazards: It can cause irritation to the eyes and skin Skin contact: Contact during a long period can cause light irritation. Visual contact: may cause slight irritation. Ingestion: Gastrointestinal complaints. Inhalation: may cause irritation or symptoms similar to asthma.' This document is: recognized by local authorities Recognized by major contractors Suitable for CDM sites Approved by H&S managers If you want others to trust your company, download and buy the right documents today. As with all our documents, our risk assessments come in WordTM format and are available for instant download and use, and you just need to buy them once. Once purchased and downloaded this document, it is yours for life to use more and more times. Chemical risk management: Includes information on the toxicity of the chemical. MSDS includes information such as melting point, boiling point and flammability point of a dangerous material. Save the job: MSDS shows how the material reacts to the environment and how to store it correctly. It describes the effects when workers come into contact with the chemical and how to proceed in case of accident. Prevent accidents: Instructions on which protection equipment should be used to manage materials. Study the safety data sheets of materials for the risks of the chemical, learn the instructions on management, storage and emergency measures in case of accident. Get our free online to learn how to apply correctly and use your MSDS. Complete a comprehensive risk assessment for your workplace so you can map all risks in a single full COSH assessment.
