Acceptable use policy for schools template

Acceptable Use Policy Acceptable Use Policy Grades K -2 Acceptable Use Policy Grades 3-5 Acceptable Use Policy Grade 6-12 Student Email Guidelines The curriculum goals of the Westport Public Schools call for integrating technology into our instructional programs and classroom practice. Towards this end, students' access to and use of electronic resources, including the Internet, is age and grade-appropriate and increases gradually from year to year. Use of the Internet by students at any grade is required to be related directly to specific curriculum objectives. At the elementary level, access to the Internet takes place only under the direct supervision of an adult. With this opportunity to make use of electronic resources comes the need for personal responsibility on the part of users. To ensure responsible use we have enclosed an Acceptable Use Agreement to be signed by parent and child when children enter the school system, with the understanding that it will be renewed in grades 3, 6 and 9. Please discuss this agreement with your child and emphasize its importance. Noncompliance can result in revocation of computer-use privileges and/or other disciplinary measures. Please note that conduct that is prohibited at school or a school sponsored activity is also prohibited off campus when it has the effect of seriously interfering with the educational process. In considering such interference, school officials will consider the following factors: whether the conduct seriously impeded the day to day operation of the school; whether the incident occurred within close proximity of a school; whether the conduct had a direct and negative impact on another student's academic performance or safety in school. For your child's safety, we strongly recommend that you monitor your children's at-home access to the Internet. We also request that you instruct them not to use their home computers or other electronic devices to transmit material that is inappropriate or offensive, particularly to schoolmates or staff members. We have installed filtering software at the elementary and middle school levels. While we do not consider it a substitute for teacher supervision or for our responsibility to provide students with clear and precise direction for use of the Internet, the software bars access to inappropriate sites with a very high degree of certainty. However, no filtering software is 100% foolproof. There remains the possibility, however slim, that despite these safeguards, your youngster may be able to see material that you and/or school officials might find inappropriate. Your signature on the agreement indicates that you are aware of this possibility. Thank you for your cooperation in helping us to ensure that all of our students make use of our computer resources in a safe and responsible manner. Acceptable Use Policy The aim of this Acceptable Use Policy is to ensure that pupils will benefit from learning opportunities offered by the school's Internet resources in a safe and effective manner. Internet use and access is considered a school resource and privilege. Therefore, if the school AUP is not adhered to this privilege will be withdrawn and appropriate sanctions – as outlined in the AUP – will be imposed. It is envisaged that school and parent representatives will revise the AUP regularly in line with developing technological issues . Before signing, the AUP should be read carefully to ensure that the conditions of use are accepted and understood. The original version of the AUP was created on the 11/03/09, reviewed in 2012, 2014 and again in 2017. This version was reviewed by Parent representatives from the Parent's Association and the Board of Management. This version was reviewed by the Principal, Staff, Parents' Association, Board of Management, Parent's IT Committee, and Pupil's IT Committee and will be subsequently reviewed as issues and matters arise relating to the acceptable use of IT. This policy is to be read in conjunction with our Anti-bullying policy which also deals with the issue of cyberbullying. School's Strategy: The school employs a number of strategies in order to maximise learning opportunities and reduce risks associated with the Internet. These strategies are as follows: General: Internet sessions will always be supervised by a teacher. Filtering software and/or equivalent systems will be used in order to minimise the risk of exposure to inappropriate material. The school will regularly monitor pupils' Internet usage. Students and teachers will be provided with training in the area of Internet safety. Uploading and downloading of non-approved software will not be permitted. Virus protection software will be used and updated on a regular basis. The use of personal memory sticks, CD-ROMs, or other digital storage media in school requires a teacher's permission. Students will treat others with respect at all times while online and will not undertake any actions that may bring the school or themselves into disrepute. World Wide Web Students will not intentionally visit Internet sites that contain obscene, illegal, hateful or otherwise objectionable materials. Students will report accidental accessing of inappropriate materials in accordance with school procedures. Students will use the Internet for educational purposes only. Students will not copy information into assignments and fail to acknowledge the source (plagiarism and copyright infringement). Students will never disclose or publicise personal information. Downloading materials or images not relevant to their studies, is in direct breach of the school's acceptable use policy. Students will be aware that any usage, including distributing or receiving information, school related or personal, may be monitored for unusual activity, security and/or network management reasons. Email Students will only use approved class email accounts under supervision by or permission from a teacher. Students will not send or receive any material that is illegal, obscene, and defamatory or that is intended to annoy or intimidate another person. Students will not reveal their own or other people's personal details, such as addresses or telephone numbers or pictures. Students will never arrange a face-to-face meeting with someone they only know through emails or the internet. Students will note that sending and receiving email attachments is subject to permission from their teacher. Parents and staff should only communicate through the official school email address () rather than teachers personal email addresses. Internet Chat Students will only have access to chat rooms, discussion forums, messaging or other electronic communication that have been approved by the school. Chat rooms, discussion forums and other electronic communication forums will only be used for educational purposes and will always be supervised by the class teacher. An example of this could be Mystery Skype or participation in the Amber project. Usernames will be used to avoid disclosure of identity. Face-to-face meetings with someone organised via Internet chat will be forbidden. School Website: www.glencullenschool.ie Pupils will be given the opportunity to publish projects, artwork or school work on the World Wide Web in accordance with clear policies and approval processes regarding the content that can be loaded to the school's website. The website will be regularly checked to ensure that there is no content that compromises the safety of pupils or staff. Website using facilities such as guest books, notice boards or web blogs will be checked frequently to ensure that they do not contain personal details. The publication of student work will be coordinated by a teacher Pupils' work will appear in an educational context on Web pages with a copyright notice prohibiting the copying of such work without express written permission. The school will endeavour to use digital photographs, audio or video clips focusing on group activities. Content focusing on individual students will not be published on the school website without the parental permission. Video clips may be password protected. Personal pupil information including home address and contact details will be omitted from school web pages. The school website will avoid publishing the first name and last name of individuals in a photograph. The school will ensure that the image files are appropriately named and will not use pupils' names in image file names or ALT tags if published on the web. Pupils will continue to own the copyright on any work published. St. Patrick's N.S. Twitter account The purpose having of a school Twitter account is to provide; Communication with parents regarding specific events & activities Communication with new or prospective parents Communication with wider audience regarding positive advertisement of school & enrolment dates Communication with wider audience of school life via photos of pupil's projects, notice boards, etc. Communication with other schools and accounts with similar educational interests St. Patrick's N.S. Facebook page StPatricks_Glencullen Updated September 2017 The purpose having of a school Facebook page is to provide; Communication with parents regarding specific events & activities Communication with new or prospective parents Communication with wider audience regarding positive advertisement of school, promotion of school & enrolment dates Communication with wider audience of school life via possible communication tours -photos of pupil's projects, notice boards, etc. Communication between parents especially new parents Continued advancement of our school communication system with information shared via paper notes, email, website & now Facebook Those using our social networking site must abide by the following; Users cannot advertise products or services on our school Facebook page Users should not post anything on the page that could be deemed as offensive – inappropriate or harmful comments/content will be removed immediately Users should not ask to become "friends" with staff as failure to respond may cause offence Users cannot tag or post photographs of children on the page Users should not add comments that can identify children To use Facebook, one must be 13 years of age or older. Therefore current pupils cannot be accepted as users. The sanction for breaking these rules is automatic removal from our Facebook page. Personal Devices Under our Mobile Phone and Electronic Gadgets Policy, personal devices are not allowed in school without the expressed permission of the class teacher and the written permission & indemnification of the parents. This occurs during exceptional circumstances and/or project work such as the Irish Aid Awards. Pupils using their own technology in school, such as leaving a mobile phone turned on or using it in class, sending nuisance text messages, or the unauthorized taking of images with a mobile phone camera, still or moving is in direct breach of the school's Acceptable Use Policy. (see Mobile Phone and Electronic Gadgets Policy, Code of Behaviour & Anti-Bullying policy) Legislation The school will provide information on the following legislation relating to use of the Internet which teachers, students and parents should familiarise themselves with: Data protection (Amendment) Act 2003 Child trafficking and Pornography Act 1998 Interception Act 1993 Video Recordings Act 1998 The Data Protection Act 1998 Support Structures The school will inform students and parents of key support structures and organisations that deal with illegal material or harmful use of the Internet. This information will be available at Internet Safety talks throughout the year. Sanctions Misuse of the Internet may result in disciplinary action, including written warnings, withdrawal of access privileges and, in extreme cases, suspension or expulsion. The school also reserves the right to report any illegal activities to the appropriate authorities. This policy has been reviewed regularly since 2009 and this current policy was reviewed in 2017.
